WHO WE ARE

Creative Visions, LLC (CV) is a cybersecurity-focused federal contractor delivering operational cybersecurity support that strengthens agency resilience, improves security visibility, and protects mission-critical systems. We integrate directly into government environments to operate, maintain, and enhance enterprise cybersecurity capabilities across on-premises, hybrid, and cloud infrastructures.

Our team supports every phase of the cybersecurity lifecycle—from proactive monitoring and vulnerability management to RMF execution, continuous monitoring, security engineering, and incident response—helping agencies reduce risk while maintaining compliance with evolving federal requirements.

CORE CAPABILITIES

CYBERSECURITY OPERATIONS

- SOC Support
- SIEM Engineering & Administration
- Continuous Monitoring
- Incident Response & Threat Analysis

SECURITY ENGINEERING

- Microsoft Sentinel
- Microsoft Defender Suite
- Microsoft Entra ID
- Azure Security
- Security Tool Integration
- Security Automation

RISK MANAGEMENT & COMPLIANCE

- Risk Management Framework (RMF)
- Authority to Operate (ATO) Support
- Continuous Monitoring
- FISMA Compliance & Reporting

VULNERABILITY MANAGEMENT

- Continuous Diagnostics & Mitigation (CDM)
- Vulnerability Assessments
- Risk Prioritization
- Remediation Tracking
- Enterprise Reporting & Dashboards

SELECT FEDERAL EXPERIENCE

DEPARTMENT OF HOMELAND SECURITY (DHS) – CDM

Supports enterprise vulnerability management and cybersecurity operations protecting more than **50,000 federal assets**. Improved enterprise visibility and reduced vulnerability prioritization timelines **by 35%** through structured data integration, analytics, and risk-based reporting.

BUREAU OF ENGRAVING AND PRINTING (BEP)

Delivered SIEM engineering, SOC support, and continuous monitoring across **~3,500 endpoints** in a high-security federal environment. Improved detection accuracy **by 40%**, enhanced threat visibility, and strengthened incident response through optimized correlation logic and centralized monitoring.

HHS ASSISTANT SECRETARY FOR PREPAREDNESS & RESPONSE (ASPR)

Responsible for FISMA reporting coordination across **20+ system owners**, improving data accuracy, reporting consistency, and executive-level visibility into enterprise cybersecurity posture. Developed SOPs and standardized workflows to support repeatable, audit-ready reporting processes.

WHY CREATIVE VISIONS

- ✓ Mission-first cybersecurity operations
- ✓ Expertise across cloud, hybrid, and traditional environments
- ✓ Hands-on operational support—not advisory-only consulting
- ✓ Rapid integration into existing government operations
- ✓ Proven experience supporting enterprise federal programs
- ✓ Lean leadership with highly experienced cybersecurity professionals
- ✓ Top Secret Facility Clearance
